Brockholes - the unreserved reserve. The story of the creation and success of this iconic nature reserve and its floating visitor village.

The Work of the Wildlife Trust. How Lancashire Wildlife Trust is working to conserve nature for the benefit of man and wildlife in the north west.

Red Squirrels. The project to protect our native red squirrel and the habitat that allows it to thrive after squirrel pox and the invasive grey squirrel.

The Plight of the Humble Bee. The conservation of our native bumble bees that are vital for the pollination of our food crops and man's survival.

Wildflowers in Lancashire. Ranging from the writers of Ancient Greece and the early plant hunters and herbalists to the species we see today.

Amazing Wildlife. The talk aims to demonstrate how survival may be threatened by highlighting examples of wildlife behaviour.

Wildlife under Threat. Introduction of invasive species can have far reaching effects and the talk illustrates the dangers of changes to the natural balance.

Owls of the World. A look at some of the species of owl from around the world and the legends that surround them.

Wildlife Gardening. Gardening with wildlife in mind, how to have a garden for you to enjoy but which will still support our threatened wildlife.

The Flora of Salthill and Cross Hill Quarries. Letting the impressive range of flowers take us through the seasons at Clitheroe LWT Nature Reserves.

Badgers - Their ecology and Current Issues. Looking at the life of our native badgers with an overview of some of the current problems they are facing.

Bats in the UK. Bats of the world including the 18 species of bat to be found in the UK if you look carefully.

Booking information overleaf

Booking Information

Our team of six volunteer speakers provide talks on the topics listed overleaf to community groups throughout the Lancashire, Manchester and North Merseyside region covered by the Lancashire Wildlife Trust.

The speakers regularly receive repeat bookings from groups as diverse as Gardening Clubs, National Federation of Women's Institutes, Mother's Union, U3A, Rotary International, Probus in the UK, Soroptimist International, Photographic Societies and many Conservation & Naturalist Groups.

Talks are delivered free but donations to support the work of the Trust in conserving our natural heritage for the benefit of man and for wildlife are gratefully accepted.

Our Fundraising Manager, Debbie Edwards, would be delighted to hear from any groups interested in fundraising for one of our campaigns such as saving the Red Squirrel threatened by the invasive grey squirrel. . dedwards@lancswt.org.uk

The Bee Orchid at Brockholes

Brockholes floating visitor village

See www.brockholes.org for events and guided walks at Brockholes Nature Reserve.

To arrange a talk for your club or society contact the team coordinator Terry Jolly by email at tjolly@lancswt.org.uk or Alison Whitham at the Wildlife Trust for Lancashire, Manchester and North Merseyside on 01772 324129.
