

Step up for
Wildlife

You've been given the gift of wildlife

A kind donation has been made to the Lancashire Wildlife Trust in your name to celebrate you and your love of wildlife!

Your gift will help us keep working to protect our region's wildlife for the future - as the funds will go straight towards our **Step up for Wildlife** appeal.

With the funds that we raise from this appeal over the next 12 months, we will be focusing on four key areas where our attention is most urgently needed. This will allow us to put our region's wildlife into recovery and ensure that our future generations inherit a vibrant, biodiverse landscape.

The four key areas that our appeal will focus on are **bringing back our lost wildlife**, **creating Nature Recovery Networks**, **putting nature at the heart of communities** and **tackling the climate emergency**. To learn more about our plans for these four priority areas, please visit our appeal page at <https://www.lancswt.org.uk/appeals/stepping-up>.

Thank you for caring about wildlife!
