## About Us

LWT was founded in 1962 by people like you, who knew they needed to take action. Since then, we have grown to be the largest nature conservation body in the area around Lancashire, Manchester and North Merseyside. We are uniquely positioned to lead change in our region, working at a grass roots, local level whilst also being part of a strong cohesive movement – The Wildlife Trusts.

We have saved many special places, acquiring and managing many of them as nature reserves—we look after over 1,288 hectares of havens for rare and threatened species and habitats,

We have the powerful voices of over 28,500 members, whose invaluable support we simply could not do without. We engage over 1,000 volunteers in our mission, 800 are active on a very regular basis alongside our team of staff. Whether this is 'digging in' on the land or helping with education, fundraising and governing the charity.

We are incredibly proud of our achievements and the number of people we have inspired along the way. We recognise, however, that if we are to face the next set of challenges for our natural world ***we need to think bigger, be bolder, and empower more people to stand with us as we fight for nature's recovery.***
